

Power Station

Product Features

- The case design is novel, all of which are independently designed and developed.
- The interior adopts aluminum alloy frame structure, which is strong, convenient and portable.
- Mobile APP remote operation, cloud receiving data.
- 1*PD100W interface, higher power, applicable to all kinds of PD equipment.
- Photoelectric complementary charging technology: solar energy and AC charge at the same time, environmentally friendly and efficient.

Specifications

Battery type	25.2V 12Ah Ternary lithium battery
Battery capacity	302.4 Wh
AC charging power	150W max
AC input voltage	100-120V ac 50/60Hz 220-240Vac 50Hz
Inverter output	100Vac 50/60Hz 300W 120Vac 60Hz 300W 220Vac 50Hz 300W 230Vac 50Hz 300W
output outlets	Japanese /American socket*2PCS Euro/UK socket*1PC
UPS function	N/A
USB output	USB-A*2PCS+USB-A Fast charge*1PCS+ USB-typeC*1PCS
DC output	Cigarette lighter 12V DC 10A Max
DC charging mode	11-25V 120W MPPT Solar controller
Display mode	LCD screen
Dimensions(L*W*H)	271*179*232mm
Net Weight	12.2lbs (5.5Kg)
Certification	FCC,UN38.3,CE,PSE
